Name	Arrdevpools	Dejoux
POOL structure	Fiberglass panels of size 4 x 4.5 feet high with RIBS for strength of panels. Fiberglass is non degradable and we do not use RCC or civil material.	Plastic shuttering kind panels with RCC in-between. Heavy and plastic is degradable.
WALL SUPORT BRACKETS	Wall support brackets are made of steel with specific design to take outside and inside water load. Even in wake of earth quake the panels and brackets will remain sturdy.	BACK side bracket made of Steel angle single. It provides support the PVC shuttering for RCC walls filled in Between.
Pool liner	We have deginer pool liner with 1.5 mm thickness and 4 layers of coating. Made in Israel.	Single layer PVC liner. Usually in Plain colour.
Pool Lights	We provide under water LED light as required on wall mounting.	NO under water lights are possible.
Skimmer and jets	IN our panels any skimmer and inlet jets can be placed for Sand filtration system with plumbing.	Not possible as PVC wall can not be cut.
Pipe less Filter	We have pipe less filter made of fibreglass in more than 9 models to take care of any kind of swimming pool and different size. (Patented Designs and working in INDIA since. 2006)	Their filters are made of Plastic which got cracked in sun light.
Filtration	Water filtration is done with cartridge filters of 25 micron have better filtration and can take more load of dust because of more surface area. These filters are internationally used for water filtration.	They are using bag filters which are having less surface area and are usually unable to take load of dust. But can pass water fast through filter.
Overall	Made for INDIA made in INDIA	Made for Europe.
